

ANEMONE, SUN OF SEA, SHELLFISH... DISCOVER THE VIBRANT UNDERWATER LIFE OF THE ST. LAWRENCE!

PRE-PRESENTATION OR POST-PRESENTATION ACTIVITY

1. Hunt for objects with different textures

In teams of 2 or 3, collect objects with these textures in a small box.

- Granular
- Dented
- Rough
- Fluffy or silky
- Rough and Spongy
- Soft
- Delicate, fragile
- Fluffy
- Soft
- Strong and pungent
- Hard and smooth
- Viscous/slimy
- Soft
- Stiff and smooth

You can use your box during the presentation to further enjoy the multi-sensory discovery of the sea floor. You can also hunt for objects after the presentation by watching the replay on YouTube that will be available a few days after the Live presentation.
